

5 Motivate yourself all the time

Some people get motivated with visiting special locations as airports, galleries, museums business districts or others.

Realising a vision is a journey with ups and downs. It is your job to motivate yourself all the time. Especially when some visions are very unique.

Every person is different. Find something where you can breathe and relax on your journey where you get new encouragement on the way.

When you realise something nobody did before, you cannot expect something positive from others in the beginning.
